

## Who We Are

Cinder Sniffers, Inc. is a model live steam club located in the greater Cincinnati area.

Our track accommodates 7½", 7¼", 4¾", 3½" and 2½" gauge (spacing between the rails) trains.

Although, as our name implies, our foundation was based on coal-fired live steam engines, we also run oil fired, propane fired, battery powered, and gasoline engines.

The Cinder Sniffers owns 3 acres of land near Guilford, IN and has over 2,200 feet of mainline track that accommodates all the five gauges.

We also have many buildings, bridges and trestles.

## Visiting Us

Railfans are invited to ride and see our trains run between 11am to 2pm, the 2nd Saturday of each month, May through October; also the Saturday after Thanksgiving and on New Year's Day. We run in snow, but with rain we will cancel.

**23600 Indiana SR-1  
Guilford, IN**

*Five miles south of I-74 from Exit 164 (St. Leon)  
Nine Miles north of Greendale*

## Joining Us

Membership is open to anyone with an active interest in railroads and modeling. The level of experience ranges from armchair modelers, to novices, to experts.

For most of us, the fun is in the learning. Having technical skills and/or equipment IS NOT a requirement for joining the Cinder Sniffers. Just drop by on a run day and talk to a member about joining.
